We can accept files created in Mac or PC

Please convert image to one color without screens or gradients.

PREFERENCES

- 1st) Adobe Illustrator native format – fonts converted to outline with no embedded images.
- 2nd) Tiff file at 300 dpi. If the file was originally in another format the resolution of the original file needed to be at least 300 dpi.
- 3rd) EPS vector file – fonts converted to outline with no embedded images.
- 4th) EPS Raster file – 300 dpi.
- 5th) JPG file at least four times larger than it will appear on your product.

If you cannot send a file in any of the above formats please send it anyway. We may be able to use it.
